Re: Amendment to Petition for Adoption of a Rule — Docket No. 26-11001 Petitioner: Green Recursive Utility Service LLC Amendment: Addition of Draft Notice required by NAC 703.162

Dear Ms. Mortimer:

Green Recursive Utility Service LLC ("GRUS") submits this amendment to its Petition for Adoption of a Rule under NRS 233B.100, filed October 30, 2026 through the Commission's Electronic Filing System (PUCN Assigned Electronic Filing ID e5de6ece-9b87-4a0e-97a0-2140f3f0be6d) and assigned Docket No. 26-11001.

The specific amendment being made — identified as requested in your deficiency notice of November 3, 2026 — is exactly one: the filing is amended to include the Draft Notice required by NAC 703.162, completed on the Commission's Draft Notice form (Applications, Tariff Filings, Complaints, and Petitions) and included with this amendment. No other part of the petition is changed: the petitioner, the rule proposed, the reasons stated, and the prayer for relief are as originally filed.

Documents included in this amendment submission: 1. This signed cover letter. 2. Draft Notice — Docket No. 26-11001 (completed Draft Notice form: title describing the relief requested; petitioner's name and contact; brief description of the purpose of the filing including its effect upon consumers; statement that no consumer session is required under NRS 704.069(1); tariff item marked not applicable).

Because the sole deficiency is the absence of the draft notice — a non-substantive omission that did not impair the Commission's ability to review the petition itself — GRUS respectfully asks that the petition be treated as submitted on its original filing date, October 30, 2026, so that the thirty-day period under NRS 233B.100(1) runs from that date.

Please confirm acceptance of this amendment and commencement of procedural review, and direct any questions to the contact below.

Respectfully submitted,

/s/ Nick Cordova **Nick Cordova, Principal Green Recursive Utility Service LLC** 205 E 3rd St, Weatherford, TX 76086

Date: November 5, 2026

PUBLIC UTILITIES COMMISSION OF NEVADA

DRAFT NOTICE (Applications, Tariff Filings, Complaints, and Petitions)

Docket No. 26-11001

Pursuant to Nevada Administrative Code ("NAC") 703.162, the Commission requires that a draft notice be included with all applications, tariff filings, complaints and petitions.

A title that generally describes the relief requested (see NAC 703.160(5)(a)):

Petition of Green Recursive Utility Service LLC for Adoption of a Rule Designating a Measurement Method for Data Center Water and Energy Reporting.

The name of the applicant, complainant, petitioner or the name of the agent for the applicant, complainant or petitioner (see NAC 703.160(5)(b)):

Green Recursive Utility Service LLC, a Texas limited liability company, 205 E 3rd St, Weatherford, TX 76086. Petitioner acts on its own behalf; contact: Nick Cordova, Principal, management@greenrecursiveutilityservice.org, telephone 817-404-6379.

A brief description of the purpose of the filing or proceeding, including, without limitation, a clear and concise introductory statement that summarizes the relief requested or the type of proceeding scheduled AND the effect of the relief or proceeding upon consumers (see NAC 703.160(5)(c)):

Green Recursive Utility Service LLC ("GRUS") petitions the Commission under NRS 233B.100 to adopt a rule designating GRUS-STD-60084 v2.0-U (Uniform Edition, DOI 10.5281/zenodo.23246001) as the measurement method by which data center facilities with electric demand of 25 megawatts or more prepare reports of water withdrawal, water consumption, and energy consumption filed with the Commission, including reports in integrated resource planning, tariff proceedings, and any large-load reporting the Commission requires. Under the proposed rule, such reports would state the facility's consumption classification under the standard and the metered quantities from which each reported figure is derived, with water accounted by source and by use and energy separated by

function (information-technology load, cooling load, and remaining facility load), and would be subject to verification in the standard's audit form (GRUS-AUD).

Effect upon consumers: The proposed rule prescribes a measurement and reporting method only. It imposes no rate, charge, or fee on consumers; the designated standard is dedicated to the public domain under CC0 1.0 and is available at no cost, so adoption creates no license fee or royalty obligation for the Commission, for utilities, or for reporting facilities. Its effect on consumers is informational: figures on which large-load decisions rest would be stated by a single auditable method, comparable between facilities and checkable against metered records.

A statement indicating whether a consumer session is required to be held pursuant to Nevada Revised Statute ("NRS") 704.069(1):

A consumer session is not required to be held pursuant to NRS 704.069(1). This petition for rulemaking is not a matter pending before the Commission pursuant to NRS 704.061 to 704.110, inclusive; it does not involve an application by a public utility for an adjustment of rates or charges, and no public utility is a party.

Tariff number and section number(s) or schedule number(s) being revised (tariff filings only):

Not applicable — this is a petition for adoption of a rule, not a tariff filing, and no tariff is revised.
